Dr. Bernd-Markus Liss Principal Advisor for BMU Projects Climate-relevant Forest Policy and Piloting of REDD Adaptation to Climate Change and Conservation of Biodiversity (ACCBio) Department of Environment and Natural Resources Climate Change Office 2nd Floor FASPO Building, Visayas Avenue, Quezon City, 1101 Philippines Tel. No. : 929-8349	Finances climate and biodiversity projects in developing and newly industrializing countries as well as countries in transition	i) Mitigating greenhouse gas emissions - assists partner countries in switching to a sustainable, low-carbon economy, focused primarily on the development of low emissions development strategies (LEDS) and nationally appropriate mitigation actions (MRV), sustainable energy supply, climate-friendly transportation, low-carbon industrial processes, and the future design of the carbon market. ii) Adapting to the impacts of climate change - supporting particularly vulnerable countries and regions in increasing their capacity to adapt to the effects of climate change. This support focuses on ecosystem-based adaptation (EbA), climate-related risk management instruments, such as innovative insurance solutions, and the development and implementation of national adaptation strategies. iii) Conserving natural carbon sinks with a focus on reducing emissions from deforestation and forest degradation (REDD+) - Synergies between forest protection and conservation of biological diversity play an important role here along with emissions reductions and adaptation to the impacts of climate change. It also finances activities aimed at emissions reductions and carbon sequestration in other ecosystems not covered by the REDD+ mechanism, for example marshes, boreal forests and savannahs. iv) Conserving biological diversity - supports partner countries to implement the targets of the Strategic Plan for Biodiversity 2011-2020 (Aichi Targets) of the international Convention on Biological Diversity. Fostering biological diversity plays a key role in IKI projects on ecosystem-based adaptation and natural carbon sinks. BMUB is financing biological diversity projects that directly implement measures for the conservation, restoration and sustainable use of ecosystems and critical habitats.	Interested applicants must contact the BMU Principal Advisor in the Philippines for details on the application procedure.	For the 2016 selection procedure, project outlines must be submitted by 01 June 2015. No information available yet on the next Call for Proposals.
