The objective of the PGTF is to provide seed money for: (i) financing pre-investment/ feasibility studies/reports prepared by professional consultancy organizations in developing country-members of the Group of 77; and (ii) facilitating the implementation of projects within the framework of the Caracas Programme of Action of ECDC. Project proposals submitted for funding from PGTF should address sectoral priorities contained in the Caracas Programme of Action that is trade, technology, food and agriculture, energy, raw materials, finance and industrialization and technical cooperation among developing countries as well as the Havana Programme of Action in the areas of South-South cooperation. For nationally executed projects to be eligible, the cooperative component of the project has to be established through the identification and declared interest of and explicit participation by other developing countries as potential beneficiaries in the activities of the project, as appropriate. Accordingly, written evidence of endorsement or declared interest should be part of the proposal. The Committee of Experts would not consider proposals failing to comply with this requirement. Cooperative projects can be carried out on a sub-regional, regional or inter-regional basis, with a minimum of three (3) participating countries. Therefore, projects that are of a bilateral nature are not eligible for funding.	Ongoing facility (call for proposals is on annual basis). Applications should be submitted not later than 30 April of each year. Late project proposals will not be considered.
