A. General

1. Introduction

- 1.1. The Procuring Entity named in the Proposal/Bid Data Sheet (BDS) shall select an individual, sole proprietorship, cooperative, partnership, corporation, or a joint venture (JV) (hereinafter referred to as “Consultant”) from among those short listed, in accordance with the evaluation procedure specified in the BDS.
- 1.2. The Procuring Entity has received financing (hereinafter called “funds”) from the source indicated in the BDS (hereinafter called the “Funding Source”) toward the cost of the Project named in the BDS. The Procuring Entity intends to apply a portion or the whole of the funds to payments for this Project.
- 1.3. Consultants are invited to submit proposals/bids composed of a technical proposal and a financial proposal for Consulting Services required for this Project described in the BDS. Proposals/Bids shall be the basis for contract negotiations and ultimately for a signed contract with the selected Consultant.
- 1.4. If the BDS indicates that the Project will be completed in phases, each phase must be completed to the Procuring Entity’s satisfaction prior to the commencement of the next phase.
- 1.5. Consultants must familiarize themselves with local conditions and take them into account in preparing their proposals/bids. To obtain firsthand information on the project and on the local conditions, Consultants are encouraged to visit the Procuring Entity before submitting a proposal/bid and to attend the pre-proposal/bid conference specified in ITB Clause 7.
- 1.6. The Consultants’ costs of preparing their proposals/bids and negotiating the contract, including a visit to the Procuring Entity, are not reimbursable as a direct cost of the project.
- 1.7. Consultants shall not be under a declaration of ineligibility for corrupt, fraudulent, collusive, coercive or obstructive practices issued by the Funding Source or the Procuring Entity in accordance with ITB Clause 3.1.

2. Conflict of Interest

- 2.1. The Funding Source’s policy requires that Consultants provide professional, objective, and impartial advice and at all times hold the Procuring Entity’s interests paramount, without any consideration for future work, and strictly avoid situations where a conflict of interest shall arise with their other projects or their own interests. Consultants shall not be hired for any project that would be in conflict with their prior or current obligations to other entities, or that may place them in a position

of not being able to carry out the Project in the best interest of the Procuring Entity. Without limitation on the generality of this rule, Consultants shall not be hired under the circumstances set forth below:

- (k) If a Consultant combines the function of consulting with those of contracting and/or supply of equipment for the same Project;
- (l) If a Consultant is associated with, affiliated to, or owned by a contractor or a manufacturing firm with departments or design offices offering services as consultants unless such Consultant includes relevant information on such relationships along with a statement in the Technical Proposal cover letter to the effect that the Consultant shall limit its role to that of a consultant and disqualify itself and its associates from work in any other capacity that may emerge from the Project (including procurement/bidding for any part of the future project). The contract with the Consultant selected to undertake the Project shall contain an appropriate provision to such effect; or
- (m) If there is a conflict among consulting projects, the Consultant (including its personnel and subconsultants) and any subsidiaries or entities controlled by such Consultant shall not be recruited for the relevant project. The duties of the Consultant depend on the circumstances of each case. While continuity of consulting services may be appropriate in particular situations where no conflict exists, a Consultant cannot be recruited to carry out a project that, by its nature, shall result in conflict with a prior or current project of such Consultant. Examples of the situations mentioned are when a Consultant engaged to prepare engineering design for an infrastructure project shall not be recruited to prepare an independent environmental assessment for the same project; similarly, a Consultant assisting a Procuring Entity in privatization of public assets shall not purchase, nor advise purchasers, of such assets; or a Consultant hired to prepare Terms of Reference (TOR) for a project shall not be recruited for the project in question.

2.2. Consultants shall not be related to the Head of the Procuring Entity (HoPE), members of the BAC, the TWG, and the BAC Secretariat, the head of the PMO or the end-user unit, and the project consultants, by consanguinity or affinity up to the third civil degree. The prohibition shall apply as follows:

- (a) If the Consultant is an individual or sole proprietorship, then to himself;
- (b) If the Consultant is a partnership, then to all its officers and members;
- (c) If the Consultant is a corporation, then to all its officers, directors and controlling stockholders;

- (d) If the Consultant is a cooperative, to all its officers, directors, and controlling shareholders or members; or
- (e) If the Consultant is a JV, the provisions of items (a), (b), (c), or (d) of this Section shall correspondingly apply to each of the members of the said joint venture, as may be appropriate.

Relationship of the nature described above or a failure to comply with the provisions of this clause will result in the rejection of the Consultant's proposal/bid.

- 2.3. Subject to the provisions of ITB Clause 2, any previous or ongoing participation by the Consultant, its professional staff, or its affiliates or associates under a contract with the Funding Source or the Procuring Entity in relation to this Project may result in the rejection of its proposal/bid. Consultants should clarify their situation in that respect with the Procuring Entity before preparing its proposal/bid.
- 2.4. Failure by a Consultant to fully disclose potential conflict of interest at the time of Proposal/Bid submission, or at a later date in the event that the potential conflict arises after such date, shall result in the Procuring Entity and/or the Funding Source seeking the imposition of the maximum administrative, civil and criminal penalties up to and including imprisonment.
- 2.5. Consultants are discouraged to include officials and employees of the Government of the Philippines (GoP) as part of its personnel. Participation of officials and employees of the GoP in the Project shall be subject to existing rules and regulations of the Civil Service Commission.
- 2.6. Fairness and transparency in the selection process require that Consultants do not derive unfair competitive advantage from having provided consulting services related to the Project in question. To this end, the Procuring Entity shall make available to all the short listed consultants together with the Proposal/Bidding Documents all information that would in that respect give each Consultant a competitive advantage.

3. Corrupt, Fraudulent, Collusive, Coercive, and Obstructive Practices

- 3.1. The Procuring Entity as well as the Consultants shall observe the highest standard of ethics during the procurement and execution of the contract. In pursuance of this policy, the Procuring Entity:

- (ii) **“fraudulent practice” means a misrepresentation of facts in order to influence a procurement process or the execution of a contract to the detriment of the Procuring Entity, and includes collusive practices among Proponents/Bidders (prior to or after proposal/bid submission) designed to establish proposal/bid prices at artificial, non-competitive levels and to deprive the Procuring Entity of the benefits of free and open competition.**
 - (iii) **“collusive practices” means a scheme or arrangement between two or more Proponents/Bidders, with or without the knowledge of the Procuring Entity, designed to establish proposal/bid prices at artificial, non-competitive levels.**

 - (x) any documented attempt by a Proponent/Bidder to unduly influence the outcome of the procurement/bidding in his favor;
 - (xi) failure of the potential joint venture partners to enter into the joint venture after the procurement/bid is declared successful; or
 - (xii) all other acts that tend to defeat the purpose of the competitive selection/bidding, such as habitually withdrawing from procurement/bidding, submitting late Proposals/Bids or patently insufficient proposal/bid, for at least three (3) times within a year, except for valid reasons.
- (b) if the successful Consultant:
- (i) fails to sign the contract in accordance with ITB Clause 31;
 - (ii) fails to furnish performance security in accordance with ITB Clause 32; or

- (iii) any other reason stated in the BDS.

16. Format and Signing of Proposals/Bids

- 16.3. The Consultant shall prepare an original of the first and second envelopes as described in ITB Clauses 10 and 11. In addition, the Consultant shall submit copies of the first and second envelopes. In the event of any discrepancy between the original and the copies, the original shall prevail.
- 16.4. Each and every page of the Technical Proposal Submission Form and the Financial Proposal Submission Form under Section VII hereof shall be signed by the duly authorized representative/s of the Consultant. Failure to do so shall be a ground for the rejection of the proposal/bid.
- 16.5. Any interlineations, erasures, or overwriting shall be valid only if they are signed or initialed by the duly authorized representative/s of the Consultant.

17. Sealing and Marking of Proposals/Bids

- 17.1. Unless otherwise indicated in the BDS, Consultants shall enclose their original technical proposal described in ITB Clause 10, in one sealed envelope marked “ORIGINAL - TECHNICAL PROPOSAL”, and the original of their financial proposal in another sealed envelope marked “ORIGINAL - FINANCIAL PROPOSAL”, sealing them all in an outer envelope marked “ORIGINAL PROPOSAL/BID”.
- 17.2. Each copy of the first and second envelopes shall be similarly sealed duly marking the inner envelopes as “COPY NO. ____ - TECHNICAL PROPOSAL” and “COPY NO. ____ – FINANCIAL PROPOSAL” and the outer envelope as “COPY NO. ____”, respectively. These envelopes containing the original and the copies shall then be enclosed in one single envelope.
- 17.3. The original and the number of copies of the proposal/bid as indicated in the BDS shall be typed or written in ink and shall be signed by the proponent/bidder or its duly authorized representative/s.
- 17.4. All envelopes shall:

- (a) contain the name of the contract to be procured/bid in capital letters;

- 17.5. Proposal/Bid envelopes that are not properly sealed and marked, as required in the proposal/bidding documents, shall not be rejected, but the proponent/bidder or its duly authorized representative shall acknowledge such condition of the Proposal/Bid as submitted. The BAC or the Procuring Entity shall assume no responsibility for the misplacement of the contents of the improperly sealed or marked Proposal/Bid, or for its premature opening.

D. Submission and Opening of Proposals/Bids

18. Deadline for Submission of Proposals/Bids

Proposals/Bids must be received by the Procuring Entity's BAC at the address and on or before the date and time indicated in the BDS.

19. Late Proposals/Bids

Any proposal/bid submitted after the deadline for submission and receipt of proposals/bids prescribed by the Procuring Entity, pursuant to ITB Clause 18, shall be declared "Late" and shall not be accepted by the Procuring Entity. The BAC shall record in the minutes of Proposal/Bid submission and opening, the Consultant's name, its representative and the time the late proposal/bid was submitted.

20. Modification and Withdrawal of Proposals/Bids

- 20.1. The Consultant may modify its proposal/bid after it has been submitted; provided that the modification is received by the Procuring Entity prior to the deadline prescribed for submission and receipt of proposals/bids. The Consultant shall not be allowed to retrieve its original proposal/bid, but shall be allowed to submit another proposal/bid equally sealed, properly identified in accordance with ITB Clause 17.4, linked to its original proposal/bid marked as "TECHNICAL MODIFICATION" or "FINANCIAL MODIFICATION" and stamped "received" by the BAC. Proposal/Bid modifications received after the applicable deadline shall not be considered and shall be returned to the Consultant unopened.

- 20.2. A Consultant may, through a letter of withdrawal, withdraw its proposal/bid after it has been submitted, for valid and justifiable reason; provided that the letter of withdrawal is received by the Procuring Entity prior to the deadline prescribed for submission and receipt of proposals/bids. The letter of withdrawal must be executed by the authorized representative of the Proponent/Bidder identified in the Omnibus Sworn Statement, a copy of which should be attached to the letter.
- 20.3 Proposals/Bids requested to be withdrawn in accordance with ITB Clause 20.1 shall be returned unopened to the Proponents/Bidders. A Consultant, who has acquired the proposal/bidding documents, may also express its intention not to participate in the procurement/bidding through a letter which should reach and be stamped by the BAC before the deadline for submission and receipt of proposals/bids. A Consultant that withdraws its proposal/bid shall not be permitted to submit another proposal/bid, directly or indirectly, for the same contract.
- 20.4 No proposal/bid may be modified after the deadline for submission of proposals/bids. No proposal/bid may be withdrawn in the interval between the deadline for submission of proposals/bids and the expiration of the period of proposal/bid validity specified by the Consultant on the Financial Proposal/Bid Form. Withdrawal of a proposal/bid during this interval shall result in the forfeiture of the Consultant's proposal/bid security, pursuant to ITB Clause 15.5, and the imposition of administrative, civil, and criminal sanctions as prescribed by R.A. 9184 and its IRR.

E. Evaluation and Comparison of Proposals/Bids

21. Opening and Preliminary Examination of Proposals/Bids

- 21.1 Only proposals/bids from short listed proponents/bidders shall be opened and considered for award of contract. These short listed proponents/bidders, whether single entities or JVs, should confirm in their Technical Proposal Submission Form that the information contained in the submitted eligibility documents remains correct as of the date of proposal/bid submission.
- 21.2 The BAC shall open the proposals/bids immediately after the deadline for the submission and receipt of proposals/bids in public, as specified in the **BDS**. In case the proposals/bids cannot be opened as scheduled due to justifiable reasons, the BAC shall take custody of the proposals/bids submitted and reschedule the opening on the next working day or at the soonest possible time through the issuance of a Bulletin to be posted at the PhilGEPS website and the website of the Procuring Entity concerned.
- 21.3 To determine each proponent's/bidder's compliance with the documents prescribed in **ITB** Clause 10, the BAC shall open the first envelope (Technical Proposal) and check the submitted documents of each proponent/bidder in accordance with ITB Clause 10.2 to ascertain if they are all present, using a

non-discretionary “pass/fail” criterion. If a proponent/bidder submits the required document, it shall be rated “passed” for that particular requirement. In this regard, proposals/bids that fail to include any requirement or are incomplete or patently insufficient shall be considered as “failed”. Otherwise, the BAC shall rate the said first proposal/bid envelope as “passed”.

- 21.4 Letters of withdrawal shall be read out and recorded during proposal/bid opening, and the envelope containing the corresponding withdrawn proposal/bid shall be returned to the Consultant unopened
- 21.5 All members of the BAC who are present during proposal/bid opening shall initial every page of the original copies of all proposals/bids received and opened.
- 21.6 All technical envelopes shall be resealed. Those rated “passed” shall be secured for the detailed technical proposal/bid evaluation, while those rated “failed” will be secured for purposes of possible filing of a request for reconsideration unless the proponent/bidder waives its right to file a request for reconsideration, in which case, the envelope shall be returned to the proponent/bidder immediately. .
- 21.7 The Procuring Entity shall prepare the minutes of the proceedings of the proposal/bid opening that shall include, as a minimum: (a) names of Proponents/Bidders, their proposal/bid price (per lot, if applicable, and/or including discount, if any), proposal/bid security, findings of preliminary examination, and whether there is a withdrawal or modification; and (b) attendance sheet. The BAC members shall sign the abstract of proposals/bids as read.

22. Process to be Confidential

- 22.1 Members of the BAC, including its staff and personnel, as well as its Secretariat and TWG, are prohibited from making or accepting any kind of communication with any Consultant regarding the evaluation of their proposals/bids until the approval by the HoPE of the ranking of shortlisted Consultants, unless otherwise allowed in the BDS or in the case of ITB Clause 23.**
- 22.2 Any effort by a proponent/bidder to influence the Procuring Entity in the Procuring Entity’s decision in respect of proposal/bid evaluation, proposal/bid comparison or contract award will result in the rejection of the Consultant’s proposal/bid.**

23. Clarification of Proposals/Bids

To assist in the evaluation, comparison and post-qualification of the proposals/bids, the Procuring Entity may ask in writing any Consultant for a clarification of its proposal/bid. All responses to requests for clarification shall be in writing. Any clarification submitted by a Consultant in respect to its proposal/bid and that is not in response to a request by the Procuring Entity shall not be considered.

24. Proposal/Bid Evaluation

- 24.1** For the evaluation of proposals/bids, numerical ratings shall be used. In order to eliminate bias in evaluating the Proposals/Bids, it is recommended that the highest and lowest scores for each Consultant for each criterion shall not be considered in determining the average scores of the Consultants, except when the evaluation is conducted in a collegial manner.
- 24.2** For complex or unique undertakings, such as those involving new concepts/technology or financial advisory services, participating short listed consultants may be required, at the option of the Procuring Entity concerned, to make an oral presentation to be presented by each Consultant, or its nominated Project Manager or head, in case of consulting firms, within fifteen (15) calendar days after the deadline for submission of Technical Proposals.
- 24.3** The entire evaluation process, including the submission of the results thereof to the HoPE for approval, shall be completed in not more than twenty-one (21) calendar days after the deadline for receipt of proposals/bids. The proposal/bid with the highest rank shall be identified as the Highest Rated Proposal/Bid. The HoPE shall approve or disapprove the recommendations of the BAC within two (2) calendar days after receipt of the results of the evaluation from the BAC.
- 24.4** All participating short listed consultants shall be furnished the results (ranking and total scores only) of the evaluation after the approval by the HoPE of the ranking. Said results shall also be posted in the PhilGEPS and the website of the Procuring Entity, if available, for a period of not less than seven (7) calendar days.

25 Evaluation of Technical Proposals

- 25.1** The BAC shall then conduct a detailed evaluation of technical proposals/bids following the procedures specified in the BDS depending on the evaluation procedure identified in the Request for Expression of Interest and ITB Clause 1.1.
- 25.2** The BAC evaluates the Technical Proposals on the basis of their compliance with the requirements under ITB Clause 10 and responsiveness to the TOR using the following criteria:
 - (a)** Quality of personnel to be assigned to the Project which covers suitability of key staff to perform the duties for the Project and general qualifications and competence including education and training of the key staff;
 - (b)** Experience and capability of the Consultant which include records of previous engagement and quality of performance in similar and in other projects; relationship with previous and current clients; and, overall work commitments, geographical distribution of

current/impending projects and attention to be given by the consultant. The suitability of the Consultant to the Project shall consider both the overall experiences of the firm and the individual experiences of the principal and key staff including the times when employed by other consultants; and

- (c) Plan of approach and methodology with emphasis on the clarity, feasibility, innovativeness and comprehensiveness of the plan approach, and the quality of interpretation of project problems, risks, and suggested solutions.

25.3 The BAC shall assign numerical weights and the minimum required technical score to each of the above criteria which shall be indicated in the BDS. A Proposal/Bid shall be rejected at this stage if it does not respond to important aspects of the TOR or if it fails to achieve the minimum Technical Score (St) indicated in the BDS.

25.4 Technical Proposals shall not be considered for evaluation in any of the following cases:

- (a) late submission, *i.e.*, after the deadline set in the ITB Clause 18;
- (b) failure to submit any of the technical requirements provided under this ITB and TOR;
- (c) the Consultant that submitted a Proposal/Bid or any of its partner and/or subconsultant belongs to one of the conflict of interest cases as described in ITB Clauses 2.1(k) to (c) and failed to make a proper statement to that effect in the cover letter; or
- (d) the Technical Proposal included any cost of the services.

26 Opening and Evaluation of Financial Proposals

26.1 Financial Proposals shall be opened on the date indicated in the BDS.

26.2 The Financial Proposals opened shall be evaluated based on the evaluation procedure indicated in ITB Clause 1.1 using the corresponding procedure provided in the BDS.

27 Negotiations

27.1 Negotiations with the Consultant that submitted the Highest Rated Proposal/Bid shall be held at the address indicated in the BDS. The aim is to reach agreement on all points.

27.2 Negotiations shall cover the following:

- (a) Discussion and clarification of the TOR and Scope of Services;
- (b) Discussion and finalization of the methodology and work program proposed by the Consultant;

- (c) Consideration of appropriateness of qualifications and pertinent compensation, number of man-months and the personnel to be assigned to the job, taking note of over-qualified personnel to be commensurate with the compensation of personnel with the appropriate qualifications, number of man-months and schedule of activities (manning schedule);
 - (d) Discussion on the services, facilities and data, if any, to be provided by Procuring Entity concerned;
 - (e) Unless otherwise indicated in the BDS, discussion on the Financial Proposal submitted by the Consultant; and
 - (f) Provisions of the contract.
- 27.3** Having selected the Consultant on the basis of, among other things, an evaluation of the proposed key professional staff, the Procuring Entity expects to negotiate a contract on the basis of the experts named in the proposal/bid. Before contract negotiations, the Procuring Entity shall require assurances that the experts shall be actually available. The Procuring Entity shall not consider substitutions during contract negotiations except for justifiable reason as may be determined by the Procuring Entity, such as illness, death, or resignation, unless both parties agree that undue delay in the selection process makes such substitution unavoidable or that such changes are critical to meet the objectives of the Project. If this is not the case and if it is established that key staff were offered in the proposal/bid without confirming their availability, the Consultant may be disqualified. Once the contract has been awarded, no replacement shall be allowed until after fifty percent (50%) of the personnel's man-months have been served, except for justifiable reasons as may be determined by the Procuring Entity. Violators shall be fined an amount equal to the refund of the replaced personnel's basic rate, which should be at least fifty percent (50%) of the total basic rate for the duration of the engagement.
- 27.4** Negotiations shall include a discussion of the technical proposal, the proposed methodology (work plan), staffing and any suggestions made by the Consultant to improve the TOR. The Procuring Entity and Consultant shall then work out the final TOR, staffing, and bar charts indicating activities, staff, periods in the field and in the home office, staff-months, logistics, and reporting. The agreed work plan and final TOR shall then be incorporated in Appendix I and form part of the contract. Special attention shall be paid to getting the most the Consultant can offer within the available budget and to clearly defining the inputs required from the Procuring Entity to ensure satisfactory implementation of the Project.
- 27.5** The financial negotiations shall include a clarification of the Consultant's tax liability in the Philippines, if any, and the manner in which it shall be reflected in the contract; and shall reflect the agreed technical modifications in the cost of the services. The negotiations shall conclude

with a review of the draft form of the contract. To complete negotiations, the Procuring Entity and the Consultant shall initial the agreed contract. If negotiations fail, the Procuring Entity shall invite the Consultant whose Proposal/Bid received the second highest score to negotiate a contract. If negotiations still fail, the Procuring Entity shall repeat the process for the next-in-rank Consultant until the negotiation is successfully completed.

28 Post Qualification

28.1 The BAC shall determine to its satisfaction whether the Consultant that is evaluated as having submitted the Highest Rated Proposal/Bid (HRB) complies with and is responsive to all the requirements and conditions specified in the Eligibility Documents and ITB Clauses 10 and 11.

28.2 Within a non-extendible period of five (5) calendar days from receipt by the Consultant of the notice from the BAC that it submitted the Highest Rated Proposal/Bid, the Consultant shall submit its latest income and business tax returns filed and paid through the BIR Electronic Filing and Payment System (EFPS) and other appropriate licenses and permits required by law and stated in the BDS.

Failure to submit any of the post-qualification requirements on time, or a finding against the veracity thereof, shall disqualify the proponent/bidder for award. Provided, in the event that a finding against the veracity of any of the documents submitted is made, it shall cause the forfeiture of the proposal/bid security in accordance with Section 69 of the IRR of RA 9184.

28.3 The determination shall be based upon an examination of the documentary evidence of the Consultant's qualifications submitted pursuant to ITB Clauses 10 and 11, as well as other information as the Procuring Entity deems necessary and appropriate, using a non-discretionary "pass/fail" criterion, which shall be completed within a period of twelve (12) calendar days.

28.4 If the BAC determines that the Consultant with the Highest Rated Proposal/Bid passes all the criteria for post-qualification, it shall declare the said proposal/bid as the Consultant with the HRRB, and recommend to the HoPE the award of contract to the said Consultant at its submitted price or its calculated proposal/bid price, whichever is lower, subject to ITB Clause 30.3.

28.5 A negative determination shall result in rejection of the Consultant's proposal/bid, in which event the BAC shall proceed to the next Highest Rated Proposal/Bid with a fresh period to make a similar determination of that Consultant's capabilities to perform satisfactorily. If the second Consultant, however, fails the post qualification, the procedure for post qualification shall be repeated for the Consultant with the next Highest Rated Proposal/Bid, and so on until the HRRB is determined for recommendation of contract award.

- 28.6 Within a period not exceeding fifteen (15) calendar days from the determination by the BAC of the HRRB and the recommendation to award the contract, the HoPE or his duly authorized representative shall approve or disapprove the said recommendation.
- 28.7 In the event of disapproval, which shall be based on valid, reasonable, and justifiable grounds as provided for under Section 41 of the IRR of RA 9184, the HoPE shall notify the BAC and the Consultant in writing of such decision and the grounds for it. When applicable, the BAC shall conduct negotiations, and if successful, post-qualification of the Consultant with the next Highest Rated Proposal/Bid. A request for reconsideration may be filed by the proponent/bidder with the HoPE in accordance with Section 37.1.3 of the IRR of RA 9184.

29 Reservation Clause

- 29.1 Notwithstanding the eligibility, short listing, or post-qualification of a Consultant, the Procuring Entity concerned reserves the right to review its qualifications at any stage of the procurement process if it has reasonable grounds to believe that a misrepresentation has been made by the said Consultant, or that there has been a change in the Consultant's capability to undertake this Project from the time it submitted its eligibility requirements. Should such review uncover any misrepresentation made in the eligibility and procurement/bidding requirements, statements or documents, or any changes in the situation of the Consultant which will affect its capability to undertake the project so that it fails the preset eligibility or proposal/bid evaluation criteria, the Procuring Entity shall consider the said Consultant as ineligible and shall disqualify it from submitting a proposal/bid or from obtaining an award or contract.
- 29.2 Based on the following grounds, the Procuring Entity reserves the right to reject any and all proposals/bids, declare a failure of procurement/bidding at any time prior to the contract award, or not to award the contract, without thereby incurring any liability, and make no assurance that a contract shall be entered into as a result of the procurement/bidding:
- (a) If there is *prima facie* evidence of collusion between appropriate public officers or employees of the Procuring Entity, or between the BAC and any of the proponents/bidders, or if the collusion is between or among the proponents/bidders themselves, or between a proponent/bidder and a third party, including any act which restricts, suppresses or nullifies or tends to restrict, suppress or nullify competition;
 - (b) If the Procuring Entity's BAC is found to have failed in following the prescribed procurement/bidding procedures; or
 - (c) For any justifiable and reasonable ground where the award of the contract will not redound to the benefit of the GoP as follows:

- (i) If the physical and economic conditions have significantly changed so as to render the project no longer economically, financially or technically feasible as determined by the HoPE;
- (ii) If the project is no longer necessary as determined by the HoPE; and
- (iii) If the source of funds for the project has been withheld or reduced through no fault of the Procuring Entity.

29.3 In addition, the Procuring Entity may likewise declare a failure of procurement/bidding when:

- (a) No proposals/bids are received;
- (b) All prospective proponents/bidders are declared ineligible;
- (c) All proposals/bids fail to comply with all the proposal/bid requirements or there is no successful negotiation, or fail post-qualification; or
- (d) The proponent/bidder with the HRRB refuses, without justifiable cause to accept the award of contract, and no award is made in accordance with Section 40 of the IRR of RA 9184.

F. Award of Contract

30. Contract Award

- 30.1** Subject to ITB Clause 28, the HoPE or its authorized representative shall award the contract to the Proponent/Bidder whose proposal/bid has been determined to be the HRRB.

 - (i) Valid JVA, if applicable;

- (ii) In the case of procurement by a Philippine Foreign Service Office or Post, the PhilGEPS Registration Number of the winning foreign consultant; and/or

31. Signing of the Contract

- 31.1 At the same time as the Procuring Entity notifies the successful Proponent/Bidder that its proposal/bid has been accepted, the Procuring Entity shall send the Contract Form to the Proponent/Bidder, which contract has been provided in the Proposal/Bidding Documents, incorporating therein all agreements between the parties.
- 31.2 Within ten (10) calendar days from receipt of the Notice of Award, the successful Proponent/Bidder shall post the required performance security and sign and date the contract and return it to the Procuring Entity.
- 31.3 The Procuring Entity shall enter into contract with the successful Proponent/Bidder within the same ten (10) calendar day period provided that all the documentary requirements are complied with.
- 31.4 The following documents shall form part of the contract:
 - (1) Contract Agreement;
 - (2) Proposal/Bidding Documents;
 - (3) Winning proponent's/bidder's proposal/bid, including the Technical and Financial Proposals, and all other documents/statements submitted (*e.g.*, proponent's/bidder's response to request for clarifications on the proposal/bid), including corrections to the proposal/bid, if any, resulting from the Procuring Entity's proposal/bid evaluation;
 - (4) Performance Security;
 - (5) Notice of Award of Contract; and

- (6) Other contract documents that may be required by existing laws and/or specified in the BDS.

32. Performance Security

- 32.2 The performance security shall be denominated in Philippine Pesos and posted in favor of the Procuring Entity in an amount not less than the percentage of the total contract price in accordance with the following schedule:

Form of Performance Security	Amount of Performance Security (Not less than the Percentage of the Total Contract Price)

demand issued by a surety or insurance company duly certified by the Insurance Commission as authorized to issue such security.	Thirty percent (30%)
---	----------------------

- 32.3 Failure of the successful Consultant to comply with the above-mentioned requirement shall constitute sufficient ground for the annulment of the award and forfeiture of the proposal/bid security, in which event the Procuring Entity shall have a fresh period to initiate negotiation and if successful, complete post-qualification of the second Highest Rated Proposal/Bid. The procedure shall be repeated until the HRRB is identified and selected for recommendation of contract award. However if no Consultant had a successful negotiation or passed post-qualification, the BAC shall declare the procurement/bidding a failure and conduct a re-procurement/bidding with re-advertisement, if necessary.**

33. Notice to Proceed

- 33.1 Within seven (7) calendar days from the date of approval of the contract by the appropriate government approving authority, the Procuring Entity shall issue the Notice to Proceed together with copies of the approved contract to the successful Consultant. - 33.2 The contract effectivity date shall be the date of contract signing. The Consultant shall commence performance of its obligations only upon receipt of the Notice to Proceed.**

34. Protest Mechanism

Decision of the Procuring Entity at any stage of the procurement process may be questioned in accordance with Section 55 of the IRR of RA 9184.

All leaves to be allowed to the Personnel are included in the staff-months of service set forth in Appendix III. Taking of leave by any Personnel should not delay the progress and adequate supervision of the Services.
- 40.3 If required to comply with the provisions of GCC Clause 43.1 hereof, adjustments with respect to the estimated periods of engagement of Key Personnel set forth in Appendix III may be made by the Consultant by prior written notice to the Procuring Entity, provided that:
- (a) such adjustments shall not alter the originally estimated period of engagement of any individual by more than ten percent (10%); and
 - (b) the aggregate of such adjustments shall not cause payments under this Contract to exceed the ceilings set forth in GCC Clause 52.1 of this Contract. Any other such adjustments shall only be made with the Procuring Entity's prior written approval.

41. Counterpart Personnel

- 41.1 If so provided in Appendix III hereto, the Procuring Entity shall make available to the Consultant, as and when provided in such Appendix III, and free of charge, such Counterpart Personnel to be selected by the Procuring Entity, with the Consultant's advice, as shall be specified in such Appendix III. Counterpart Personnel shall work with the Consultant. If any member of the Counterpart Personnel fails to perform adequately any work assigned to such member by the Consultant which is consistent with the position occupied by such member, the Consultant

- 41.2 The responsibilities of the Counterpart Personnel shall be specified in Appendix III, attached hereto, and the Counterpart Personnel shall not perform any work beyond the said responsibilities.
- 41.3 If Counterpart Personnel are not provided by the Procuring Entity to the Consultant as and when specified in Appendix III, and or if the Counterpart Personnel lack the necessary training, experience or authority to effectively undertake their responsibilities, the Procuring Entity and the Consultant shall agree on how the affected part of the Services shall be carried out, and the additional payments, if any, to be made by the Procuring Entity to the Consultant as a result thereof pursuant to GCC Clause 52 hereof.

- 42.1 Unless otherwise specified in the SCC, within ten (10) calendar days from receipt of the Notice of Award from the Procuring Entity but in no case later than the signing of the contract by both parties, the Consultant shall furnish the performance security in any the forms prescribed in the ITB Clause 32.2.
- 42.2 The performance security posted in favor of the Procuring Entity shall be forfeited in the event it is established that the Consultant is in default in any of its obligations under the contract.
- 42.3 The performance security shall remain valid until issuance by the Procuring Entity of the Certificate of Final Acceptance.
- 42.4 The performance security may be released by the Procuring Entity and returned to the Consultant after the issuance of the Certificate of Final Acceptance subject to the following conditions:

 - (b) The Consultant has no pending claims for labor and materials filed against it; and
 - (c) Other terms specified in the SCC.

43. Standard of Performance

- 43.1 The Consultant shall perform the Services and carry out their obligations hereunder with all due diligence, efficiency and economy, in accordance with generally accepted professional techniques and practices, and shall observe sound management practices, and employ appropriate advanced technology and safe and effective equipment, machinery, materials and methods.**
- 43.2 The Consultant shall always act, in respect of any matter relating to this Contract or to the Services, as faithful advisers to the Procuring Entity, and shall at all times support and safeguard the Procuring Entity's legitimate interests in any dealings with Subconsultants or third parties.**
- 43.3 The Consultant shall furnish to the Procuring Entity such information related to the Services as the Procuring Entity may from time to time reasonably request.**
- 43.4 The Consultant shall at all times cooperate and coordinate with the Procuring Entity with respect to the carrying out of its obligations under this Contract.**

44. Consultant Not to Benefit from Commissions, Discounts, etc.

The remuneration of the Consultant pursuant to GCC Clause 53 hereof shall constitute the Consultant's sole remuneration in connection with this Contract or the Services and, subject to GCC Clause 45 hereof, the Consultant shall not accept for their own benefit any trade commission, discount or similar payment in connection with activities pursuant to this Contract or to the Services or in the discharge of their obligations hereunder, and the Consultant shall use its best efforts to ensure that any Subconsultants, as well as the Personnel and agents of either of them, similarly shall not receive any such additional remuneration.

45. Procurement by the Consultant

If the Consultant, as part of the Services, has the responsibility of advising or procuring goods, works or services, for the Procuring Entity, the Consultant shall comply with any applicable procurement guidelines of the Funding Source, and shall at all times exercise such responsibility in the best interest of the Procuring Entity. 46. Specifications and Designs

- 46.1 The Consultant shall prepare all specifications and designs using the metric system and shall embody the best design criteria applicable to Philippine conditions. The Consultant shall specify standards which are accepted and well-known among industrial nations.**
- 46.2 The Consultant shall ensure that the specifications and designs and all documentation relating to procurement of goods and services for this Contract are prepared on an impartial basis so as to promote national and international competitive selection/bidding.**

47. Reports

The Consultant shall submit to the Procuring Entity the reports, deliverables and documents in English, in the form, in the numbers, and within the time periods set forth in Appendix II.

48. Assistance by the Procuring Entity on Government Requirements

48.1 The Procuring Entity may assist the Consultant, Subconsultants, and Personnel in the payment of such taxes, duties, fees and other impositions as may be levied under the Applicable Law by providing information on the preparation of necessary documents for payment thereof.

48.2 The Procuring Entity shall use its best efforts to ensure that the Government shall:

- (a) provide the Consultant, Subconsultants, and Personnel with work permits and such other documents as shall be necessary to enable the Consultant, Subconsultants, or Personnel to perform the Services;**

- (d) issue to officials, agents and representatives of the Government all such instructions as may be necessary or appropriate for the prompt and effective implementation of the Services; and**
- (e) grant to foreign Consultant, any foreign Subconsultant and the Personnel of either of them the privilege, pursuant to the Applicable Law, of bringing into the Government's country reasonable amounts of foreign currency for purposes of the Services or for the personal use of the foreign Personnel and their dependents.**

49. Access to Land

The Procuring Entity warrants that the Consultant shall have, free of charge, unimpeded access to all lands in the Philippines in respect of which access is required for the performance of the Services. The Procuring Entity shall be responsible for any damage to such land or any property thereon resulting from such access and shall indemnify the Consultant and each of the Personnel in respect of liability for any such damage, unless such damage is caused by the default or negligence of the Consultant or any Subconsultant or the Personnel of either of them.

50. Subcontract

- 50.1** Subcontracting of any portion of the Consulting Services, if allowed in the BDS, does not relieve the Consultant of any liability or obligation under this Contract. The Consultant will be responsible for the acts, defaults, and negligence of any subconsultant, its agents, servants or workmen as fully as if these were the Consultant's own acts, defaults, or negligence, or those of its agents, servants or workmen.
- 50.2** Subconsultants disclosed and identified during the procurement/bidding may be changed during the implementation of this Contract, subject to compliance with the required qualifications and the approval of the Procuring Entity.

51. Accounting, Inspection and Auditing

51.1 The Consultant shall:

- (b)** permit the Procuring Entity or its designated representative and or the designated representative of the Funding Source at least once for short-term Contracts, and annually in the case of long-term Contracts, and up to one year from the expiration or termination of this Contract, to inspect the same and make copies thereof as well as to have them audited by auditors appointed by the Procuring Entity; and
- (c)** permit the Funding Source to inspect the Consultant's accounts and records relating to the performance of the Consultant and to have them audited by auditors approved by the Funding Source, if so required.

51.2 The basic purpose of this audit is to verify payments under this Contract and, in this process, to also verify representations made by the Consultant in relation to this Contract. The Consultant shall cooperate with and assist the Procuring Entity and its authorized representatives in making such audit. In the event the audit discloses that the Consultant has overcharged the Procuring Entity, the Consultant shall immediately reimburse the Procuring Entity an amount equivalent to the amount overpaid. If overpayment is a result of the Consultant having been engaged in what the Procuring Entity (or, as the case may be, the Funding Source) determines to constitute corrupt, fraudulent, or coercive practices, as defined in GCC Clause 27(e) and under the Applicable Law, the Procuring Entity shall, unless the Procuring Entity decides otherwise, terminate this Contract.

51.3 The determination that the Consultant has engaged in corrupt, fraudulent, coercive practices shall result in the Procuring Entity and/or the Funding

Source seeking the imposition of the maximum administrative, civil and criminal penalties up to and in including imprisonment.

52. Contract Cost

- 52.1** Except as may be otherwise agreed under GCC Clause 10, payments under this Contract shall not exceed the ceiling specified in the SCC. The Consultant shall notify the Procuring Entity as soon as cumulative charges incurred for the Services have reached eighty percent (80%) of this ceiling.
- 52.2** Unless otherwise specified in the SCC, the cost of the Services shall be payable in Philippine Pesos and shall be set forth in the Appendix IV attached to this Contract.

53. Remuneration and Reimbursable Expenditures

- 53.1** Payments of Services do not relieve the Consultant of any obligation hereunder.
- 53.2** Remuneration for the Personnel shall be determined on the basis of time actually spent by such Personnel in the performance of the Services including other additional factors indicated in the SCC after the date determined in accordance with GCC Clause 22, or such other date as the Parties shall agree in writing, including time for necessary travel via the most direct route, at the rates referred to, and subject to such additional provisions as are set forth, in the SCC.
- 53.3** Remuneration for periods of less than one month shall be calculated on an hourly basis for time spent in home office (the total of 176 hours per month shall apply) and on a calendar-day basis for time spent away from home office (1 day being equivalent to 1/30th of a month).
- 53.4** Reimbursable expenditures actually and reasonably incurred by the Consultants in the performance of the Services are provided in the SCC.
- 53.5** Billings and payments in respect of the Services shall be made as follows:
- (a)** The Procuring Entity shall cause to be paid to the Consultant an advance payment as specified in the SCC, and as otherwise set forth below. The advance payment shall be due after the Consultant provides an irrevocable standby letter of credit in favor of the Procuring Entity issued by an entity acceptable to the Procuring Entity in accordance with the requirements provided in the SCC.
 - (b)** As soon as practicable and not later than fifteen (15) days after the end of each calendar month during the period of the Services, the Consultant shall submit to the Procuring Entity, in duplicate, itemized statements, accompanied by copies of receipted invoices, vouchers and other appropriate supporting materials, of the

amounts payable pursuant to GCC Clauses 52.1 and 53 for such month. Separate monthly statements shall be submitted in respect of amounts payable in foreign currency and in local currency. Each separate monthly statement shall distinguish that portion of the total eligible costs which pertains to remuneration from that portion which pertains to reimbursable expenditures.

- (c) The Procuring Entity shall cause the payment of the Consultant's monthly statements within sixty (60) days after the receipt by the Procuring Entity of such statements with supporting documents. Only such portion of a monthly statement that is not satisfactorily supported may be withheld from payment. Should any discrepancy be found to exist between actual payment and costs authorized to be incurred by the Consultant, the Procuring Entity may add or subtract the difference from any subsequent payments. Interest shall be paid for delayed payments following the rate provided in the SCC.

54. Final Payment

- 54.1 The final payment shall be made only after the final report and a final statement, identified as such, shall have been submitted by the Consultant and approved as satisfactory by the Procuring Entity. The Services shall be deemed completed and finally accepted by the Procuring Entity and the final report and final statement shall be deemed approved by the Procuring Entity as satisfactory ninety (90) calendar days after receipt of the final report and final statement by the Procuring Entity unless the Procuring Entity, within such ninety (90)-day period, gives written notice to the Consultant specifying in detail deficiencies in the Services, the final report or final statement. The Consultant shall thereupon promptly make any necessary corrections within a maximum period of ninety (90) calendar days, and upon completion of such corrections, the foregoing process shall be repeated.
- 54.2 Any amount which the Procuring Entity has paid or caused to be paid in accordance with this clause in excess of the amounts actually payable in accordance with the provisions of this Contract shall be reimbursed by the Consultant to the Procuring Entity within thirty (30) days after receipt by the Consultant of notice thereof. Any such claim by the Procuring Entity for reimbursement must be made within twelve (12) calendar months after receipt by the Procuring Entity of a final report and a final statement approved by the Procuring Entity in accordance with the above.

55. Lump Sum Contracts

- 55.1 For Lump Sum Contracts when applicable, notwithstanding the terms of GCC Clauses 10, 18.1, 31(c), 41.3, 53.2, 53.3, 53.4, 53.5, and 54.1, the provisions contained hereunder shall apply.

- 55.2 **Personnel** - Any replacement approved by the Procuring Entity in accordance with ITB Clause 27.3 shall be provided by the Consultant at no additional cost.
- 55.3 **Staffing Schedule** - Should the rate of progress of the Services, or any part hereof, be at any time in the opinion of the Procuring Entity too slow to ensure that the Services are completed in accordance with the Staffing Schedule, the Procuring Entity shall so notify the Consultant in writing and the Consultant shall at its sole cost and expense, thereupon take such steps as necessary, subject to the Procuring Entity's approval, or as reasonably required by the Procuring Entity, to expedite progress so as to ensure that the Services are completed in accordance with the Staffing Schedule.
- 55.4 **Final payment** pursuant to the Payment Schedule in Appendices IV and V shall be made by the Procuring Entity after the final report has been submitted by the Consultant and approved by the Procuring Entity.
- 55.5 **Termination** - Upon the receipt or giving of any notice referred to in GCC Clause 29 and if the Consultant is not in default under this Contract and has partly or substantially performed its obligation under this Contract up to the date of termination and has taken immediate steps to bring the Services to a close in prompt and orderly manner, there shall be an equitable reduction in the maximum amount payable under this Contract to reflect the reduction in the Services, provided that in no event shall the Consultant receive less than his actual costs up to the effective date of the termination, plus a reasonable allowance for overhead and profit.
- 55.6 **Unless otherwise provided in the SCC, no additional payment for variation order, if any, shall be allowed for this Contract.**

56. Liquidated Damages for Delay

If the Consultant fails to deliver any or all of the Services within the period(s) specified in this Contract, the Procuring Entity shall, without prejudice to its other remedies under this Contract and under the Applicable Law, deduct from the contract price, as liquidated damages, a sum equivalent to one-tenth of one percent of the price of the unperformed portion of the Services for each day of delay based on the approved contract schedule up to a maximum deduction of ten percent (10%) of the contract price. Once the maximum is reached, the Procuring Entity may consider termination of this Contract pursuant to **GCC Clause 27**.

FORMULATION OF THE MANILA BAY SUSTAINABLE DEVELOPMENT MASTER PLAN

1. RATIONALE

The overarching objective of the Philippine Development Plan (PDP) 2017-2022 for the infrastructure sector in the medium-term is to accelerate infrastructure development and ensure that operations of infrastructure systems and facilities will be sustained. In support of the said objective, the government shall formulate master plans and roadmaps to ensure that the implementation of programs and projects are harmonized and well-coordinated. Toward this end, a NEDA-administered Infrastructure Development Preparation (IDP) Fund was included in the 2017 General Appropriations Act (GAA), which will fund among others, the Manila Bay Sustainable Development Master Plan (MBSDMP).

Manila Bay is the transitional area (or delta) between the river-dominated catchments of Pampanga and Pasig rivers, and the open South China Sea. The use and environmental quality of Manila Bay is largely determined by the presence of Manila Metropolitan area in the coastal plain, its 25 million inhabitants and related economic activities. Successive changes in and around Manila Bay are largely due to the intertwining impacts of continued industrialization, unrelenting increase in population and the incessant human activities catering to the livelihood and habitation. Related industrial waste discharges and discharges of untreated domestic wastes from drainage and sewer outlets are directly degrading the overall environment of Manila Bay and those impacts are manifested in the continued deterioration of the water quality and ecology within the bay. Additional problems identified in Manila Bay include: coastal erosion and siltation; coastal flooding, salinity intrusion, overexploitation of fishery resources; degradation of habitats; and loss of biodiversity. The latter two are related to the destruction of the remaining patches of mangroves for aquaculture, reclamation of intertidal areas for housing development, road construction and salt pans, continuous dredging and increasing state of pollution (solid waste, domestic and industrial wastewater and oil spills).

Climate change (inducing sea level rise, associated with increased typhoon intensity and leading to altered temperature and precipitation) and continued subsidence due to ground water extraction will aggravate these challenges in the future.

As significant decisions are to be made regarding the development of large land reclamation projects or a new airport in the bay, among others, in case of strong evidence on the negative impact of activities in any development to the Bay area, appropriate experts/resource persons should be able to provide inputs to the government on the appropriate course of action to take. Such activities can have irreversible consequences, may impose significant costs to the economy, landscape and environment and might exclude future development opportunities when not addressed properly and studied adequately. To make informed decisions on the future development of Manila Bay, a coordination and cooperation structure is required between the decision makers [i.e., National Government Agencies (NGAs) and LGUs] and stakeholders [e.g., sector representatives, non-government organizations (NGOs), the private sector and investors]. At best, each Government Agency and LGU has its own plans, which have been developed more or less in isolation of other interests. In spite of the substantial and profound

economic benefits from the Bay and the many problems besetting the severely degraded area, there is no overarching plan nor supervising entity that is responsible and accountable for its management and development. This is further confirmed by the 2008 and 2010 Supreme Court decisions on Manila Bay that show at least 13 government departments and agencies (i.e., the mandamus agencies)³ having direct responsibilities and functions needed to enforce actions towards the clean-up of inlands and rivers that drain to the Bay and of the Bay itself.

2. OBJECTIVES

2.1. Background and Objective of the Study

Considering the complex situation in the Manila Bay area, and its importance to the Philippine economy (i.e., the Manila Bay catchment generates some 53% of the country's domestic product and is host to some 25 million people), it is imperative to develop an inclusive Master Plan and a supporting institutional framework to provide a vision for the entire development within the Bay area.

The objective is to formulate a sustainable master plan for the development of Manila Bay which will guide decision-makers in the assessment and approval of programs/ /activities/projects (PAPs) for implementation in the Manila Bay that are consistent with national, regional and local priority policies including management and development plans, without prejudice to the activities done by among others, DENR as lead agency, in implementing the Operational Plan for the Manila Bay Coastal Strategy (OPMBCS) towards the cleaning up, rehabilitation and preservation of the Manila Bay based on the Supreme Court Ruling promulgated in February 2011 (G.R. Nos. 171947-48)⁴.

Given the involvement of private sector investors and project developers, private sector development initiatives are an important opportunity for the sustainable development and management of Manila Bay. Guidance for assessment and approval of the private sector proposals (including investment propositions for land reclamations, among others) therefore should be an important aspect of the MBSDMP.

An important building block for the MBSDMP was the recent report of the Dutch Risk Reduction (DRR) Team on future master planning for Manila Bay. The DRR Team stressed the need to transfer from a situation of ad hoc unsolicited private sector investment proposals towards a transparent process of solicited proposals supporting the implementation of the MBSDMP. While the MBSDMP can benefit from expertise in the private sector, supervision is required to ensure that these investment proposals meet the sustainable criteria and designated zoning within Manila. The supervision should ensure an independent and scientifically correct judgement and appropriate guidance of PAPs in the form of private investment propositions, concessions, etc.

³ Metropolitan Manila Development Authority (MMDA), Department of Environment and Natural Resources (DENR), Department of Education (DepEd), Department of Health (DOH), Department of Agriculture - Bureau of Fisheries and Aquatic Resources (DA/BFAR) and Bureau of Soils and Water Management (DA/BSWM), Department of Public Works and Highways (DPWH), Department of Budget and Management (DBM), Philippine Coast Guard (PCG), Philippine National Police (PNP) Maritime Group, Department of Interior and Local Government (DILG), Metropolitan Waterworks and Sewerage System (MWSS), Local Water Utilities Administration (LWUA), and Philippine Ports Authority (PPA)

⁴ x x x Acting on the recommendation of the Manila Bay Advisory Committee, the Court hereby resolves to ORDER the following: The Department of Environment and Natural Resources (DENR), as lead agency in the Philippine Clean Water Act of 2004, shall submit to the Court on or before June 30, 2011 the updated Operational Plan for the Manila Bay Coastal Strategy. x x x

While traditional plans for Coastal Management and Development assume public financing, the MBSDMP approach aims to make use of solicited private sector investments to achieve strategic management and development goals for inclusive growth, ecosystem protection, climate change adaptation and disaster risk reduction, water quality improvement and upgrading informal settlements. The inclusive master plan will ensure that private sector investments contribute financially, technically and structurally to agreed development goals, including improved living conditions in informal settlements. The master planning activities will include mechanisms for issuing, granting and monitoring concessions for private investments in and around Manila Bay.

For this purpose, the Dutch Deltares Institute or “Deltares”, an independent knowledge institute in the Netherlands, endorsed by the Ministry of Foreign Affairs (MFA) of The Netherlands is proposed to lead the Dutch Expert Team (DET) and the Local Consulting Firm (LCF) to be contracted; and as such, supports NEDA in the development of the MBSDMP.

2.2. Expected Output of the Study

By the end of the contract period, the LCF is expected to provide inputs to the Oversight Consultants nominated by the Netherlands Government for a comprehensive and sustainable master plan for Manila Bay and the immediate coastal zone together with the larger catchment, as the influence sphere (i.e., area bounded by the Caraballo mountains to the north, the Zambales mountains to the northwest, the Bataan mountains to the west and the Sierra Madre mountain range to the east; as well as river systems contributing to discharge in Manila Bay from Nueva Ecija, Bataan, Pampanga, Bulacan, Cavite, Rizal, National Capital Region and Laguna), containing among others the following information:

- a. Establishment of stakeholder profiles and the determination of physical and climatological attributes of the Bay;
- b. Analysis of key problems/issues as well as opportunities faced by the national/local authorities and constituents in the area;
- c. Identification of gaps with regard to, among others, infrastructure requirements, sustainability/management of environment and natural resources;
- d. Development of potential measures to address the gaps/problems identified;
- e. Action Plan incorporating recommendations to best achieve results intended by the master plan including a presentation on a suitable financing/funding plan to address the budgetary requirements corresponding to the development interventions necessary to be implemented; and
- f. Communications plan, including an audio visual presentation (AVP), for effective coordination and communication among concerned stakeholders.

In addition, the LCF will provide support on the following:

- a. Setting up a consultative process of stakeholder engagement aimed at providing inputs for the master plan. The consultation process will allow for constructive dialogues as part of capacity building among representatives of local communities/NGOs, NGAs, academe, investors and representatives of business communities in order to perform their existing and future PAPs effectively, efficiently and sustainably;
- b. Coming up with institutional recommendations on improved management and development for Manila Bay, specifically on how relevant development PAPs should be implemented, which may include recommendations for legislative agenda;

- c. Advising NEDA and other partners on setting up design competitions and other mechanisms to mobilize inputs of stakeholders involving private sector initiatives, either on a non-reimbursable basis or on a basis of transparent re-imbursements;
- d. Matching the estimates of costs of measures on the one hand with on the other hand estimates of revenues of (i) concession based infrastructure (roads/public transport/ ports/airports); (ii) land-reclamation and real estate development and (iii) other value capturing mechanisms;
- e. Proposing legal and financial mechanisms for linking revenues of private investments with costs of building/maintaining investments for water management and development and for social investments. For this purpose, options may be considered such as project development companies/funds, etc. These options need to be reviewed in the context of tax and other regulations;
- f. Setting up a transparent process of solicitation of proposals of public and private parties that on the basis of agreed master plan parameters will combine value capturing mechanisms (e.g., real estate, infrastructure-concessions) with the strategic goals; and,
- g. Setting up procedures for appraising the proposals and allowing for a transparent process of integrating the different proposals of various (public and private) parties taking into account the Philippines requirements for designing, procurement and building of infrastructure; for zoning, special housing and environmental planning, among others.

Figure 1 shows the proposed project management structure for the Study:

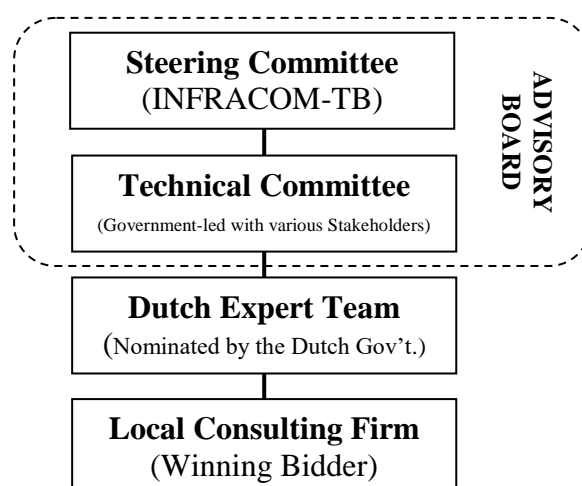

Figure 1: Project Management Structure for the Formulation of the MBSDMP

NEDA shall be the coordinating office and set up a Steering Committee and Technical Committee for the Study. The said Committees, acting as the Advisory Board, will review the outputs of the DET and the LCF. The Steering Committee, which shall be comprised of the members of the NEDA Board Committee on Infrastructure – Technical Board (INFRACOM-TB) and supported by the INFRACOM Secretariat, shall provide guidance to the DET and the LCF as necessary. Under the Steering Committee is the Technical Committee composed of various stakeholders (including representatives from NGAs such as the mandamus agencies; LGUs; representatives from the affected Bay areas as well as representatives from the Dutch Government) which shall be tasked to review activities for the undertaking and endorse as needed, inputs from the DET and/or LCF to the Steering Committee for approval⁵. All inputs to be provided by the foreign experts and LCF will be cleared

⁵ The Technical Committee shall act on the inputs within the prescribed working days upon satisfactory compliance by the DET/LCF with the requirements of the deliverables for the Study, for subsequent approval of the Steering Committee.

by the DET in its capacity as oversight consultant to the former. In case of conflict in the management/implementation of the aforementioned activities, the Technical Committee shall address present issues and if warranted, seek prior consent from the Steering Committee in moving to resolve internal discords/disagreements that may be encountered. Moreover, the Advisory Board will ensure that the final report reflects its comments and recommendations. Annex A shows the proposed Project Organization and the detailed functional relationship of the DET and the LCF.

3. SCOPE OF WORKS

3.1. General

The LCF's scope of works includes, but is not limited to the following:

- a. Preparation of the general and detailed work and financial plan for the conduct of master plan. The work plan shall include the timetable/schedule for each of the activities (i.e., Gantt chart) and the composition of the entire team to be assigned in said undertaking (i.e., DET and LCF);
- b. Conduct of inclusive assessment, identification of potential stakeholders and primary data gathering (i.e., including interviews/coordination with relevant individuals, agencies, institutions among others; but may not necessitate updating of data that continue to remain valid; as may be needed);
- c. Analysis of the data gathered to come up with feasible policies, strategies and other recommendations for the sustainable development of the Manila Bay area;
- d. Preparation and submission of reports, including the proposed guiding policies and institutional frameworks, as required by NEDA, and presentation of such findings to NEDA if needed;
- e. Performance of other tasks (i.e., tasks not previously identified but are necessary to come up with an acceptable master plan) as needed; and
- f. Coordinate with DET on, among others, the submission of deliverables.

3.2. Preparation of a Strategic Plan and Operational Plan

The master plan should be instrumental in linking economic planning and development projects (e.g., coastal protection works, roads, ports, and other transport infrastructure, solid waste and water resources management and reclamation activities) to environmental and resource management goals for Manila Bay and addressing social and ecological issues such as poverty alleviation, food security, public health and biodiversity through the rehabilitation and sustainable development of marine and coastal resources with appropriate financing/funding.

Since the master plan is intended to serve as a long-term framework for the sustainable development of the Manila Bay area, it should provide a vision that is consistent with the national development objectives under the Philippine Development Plan (PDP) and contribute in achieving the country's long-term vision as spelled out in the AmBisyon 2040. To this end, the implementation of the master plan should be typically within a 22-year planning period or until CY 2040.

The master plan will be focused on the Manila Bay area and its immediate coastal zone, and will also deal with the influence from the Manila Bay catchment area (as outlined in Figure 2) bounded by the Caraballo mountains to the north, the Zambales mountains to the northwest, the Bataan

mountains to the west and the Sierra Madre mountain range to the east. River systems⁶ contributing to discharge in Manila Bay from Nueva Ecija, Bataan, Pampanga, Bulacan, Cavite, Rizal, National Capital Region and Laguna should be taken into account.

Figure 2: Manila Bay catchment area

Specifically, the Study shall involve, but not be limited to, the following work phases:

Component 1: Strategic Plan / Master Plan

- a. Inception - Shall be conducted to identify objectives and corresponding criteria for evaluating the achievement of the objectives for Manila Bay as well as agree with stakeholders on enabling conditions. The main activities in this phase include the following:
 - i. Create enabling conditions for the planning exercise;
 - ii. Set up the stakeholders' involvement process;
 - iii. Define the analysis conditions;
 - iv. Define the socio-economic objectives that the master plan should support.
- b. Situation Analysis – This shall be conducted to determine the complete description of all elements of the Manila Bay system, i.e., the natural (e.g., water systems, coastal zone and river basins), socio-economic (e.g., infrastructure, agriculture, fisheries, industry, tourism) and institutional aspects (e.g., governance, policies). The major problems and issues faced by the national and regional authorities and stakeholders should be extensively described for the present situation (base case) and future situation (reference case). Future scenarios need to be described and analysed and an overall problem description needs to be provided. Potential measures should be formulated and screened and no regret measures need to be identified and presented to possible implementors. Specifically, the LCF shall conduct situation analysis for, but not be limited to, the following:

Goals and Policies

- The aspiration of stakeholders about the future in the Bay area as well as how they want to improve their quality of life.
- Assessing the direction that the constituents in the area want to pursue.

Economic Development

⁶ The two (2) main contributory areas in terms of discharge are the Pasig and the Pampanga river basins. Other major rivers discharging directly into Manila Bay are the Marikina-Meycauayan, Navotas-Malabon-Tullahan-Tenejeros, Talisay, Pasig, and Maragondon rivers.

- Determination of the strengths, weaknesses, opportunities and threats (SWOT) of the market and labor force in the regional/local economy to plan for new business and development.
- Identification of enhancements to be made to stimulate inclusive economic growth through assessment of businesses and industry location factors.

Land Use

- Examining the pattern and classification of land use in the Manila Bay area, including public, private and protected lands as well as reclamation.
- Identifying the ideal areas for development to meet future needs as determined by the other plan elements.

Environment and Disaster Risk Reduction and Management

- Assessment of land and water resources quality including the coastal zone, cultural/heritage sites and marine sanctuaries and protected areas whose preservation is important in maintaining natural resources and character within the area.
- Consideration of climate change; disaster risk reduction, i.e., hydrometeorological and geophysical hazards; and risks due to slow-setting environmental changes, e.g., land subsidence and sea-level rise.

Housing

- Identifying the trend in residential development and urban human settlement to be able to determine the types and location of housing needs within the area.
- Examining the development and affordability of housing vis-à-vis influence of future market forces in the sector.

Services and Facilities

- Analysis of accessibility and status of public services such as, but not limited to, public safety, water and sewerage, flood management, waste management, electricity, internet and other utilities.
- Forecast of future growth and valuation of the needed provision services in planning for their expansion.
- Examining the current state of delivery of services and identifying best management practices and cost-effective techniques to be implemented.

Transportation and Circulation

- Identifying the existing and potential roadway, shipping and navigation problems through examination of circulation and parking patterns and developing strategies for improvement.
- Alleviating the traffic congestion problem by identifying available transportation options and future developments which are necessary for their implementation.

Recreation and Tourism

- Assessing the future open space areas, recreational resources and tourism aspects within the Bay area in planning for the maintenance and expansion of existing facilities and construction of new ones.
- Recommending techniques to better protect and manage such resources and areas.

- c. Strategy Building – In this phase coherent combinations of potential measures need to be developed to satisfy the objectives as defined in the first step. Close coordination among the decision makers and stakeholders is needed to determine the preferred strategy to pursue/undertake.

Component 2: Operational Plan / Action Plan / Master Plan Fine-tuning

- a. Action Plan – Technical optimization of measures, cost-benefit analysis, socio-economic and environmental assessments at pre-feasibility, taking into account complementarity with the said OPMBCS, need to be included. In addition, GIS-based maps shall be generated to overlay the proposed projects with existing facilities/developments in the Manila Bay area. The action plan should be concrete, by assigning clear responsibilities for carrying out the activities involved. It should also include the detailed budgetary requirements for the implementation, including investments and recurrent costs as well as define accountability and monitoring indicators relative to existing key performance indicators [e.g. relocation of informal settler families (ISFs)].

3.3. Consultative Workshops

As interaction with stakeholders is of critical importance during the consulting services, consultation workshops or meetings shall be conducted to obtain/secure views, comments and recommendations, and other inputs from relevant agencies, NGOs, private sector, investors and other concerned stakeholders for the formulation of the Master Plan. Consultative meetings with said concerned entities shall be conducted as deemed necessary with the aim of reconciling points of view in line with the national interest over the Bay area.

3.4 Training/Workshop

The Consultant shall conduct a training/workshop every quarter in order to train/capacitate NEDA Personnel and its counterparts (at least 20 personnel) on the various planning tools, techniques and skill sets employed in the conduct of the Study, including database management. A study tour/learning visit shall be conducted with the purpose of exposing concerned government personnel to good practices/models and experiences on the sustainable development of coastal areas. The DET will organize the study tour.

Such amount shall be deducted from any money due or which may be due to the LCF under the contract and/or collect such liquidated damages from the retention money or other securities posted by the LCF, whichever is convenient to NEDA.

VI. Consultant's Representations Regarding Costs and Charges

Breakdown of Remuneration Rates, WB funded projects using Quality Based Selection, Selection Based on the Consultant's Qualifications and Single Source Selection.

1. Review of Remuneration Rates

1.1 The remuneration rates for staff are made up of salary, social costs, overheads, fee that is profit, and any premium or allowance paid for projects away from headquarters. To assist the Consultant in preparing for financial negotiations, a sample form giving a breakdown of rates is attached (no financial information should be included in the Technical Proposal). Agreed breakdown sheets shall form part of the negotiated contract.

1.2 The Procuring Entity is charged with the custody of Government funds and is expected to exercise prudence in the expenditure of these funds. The Procuring Entity is, therefore, concerned with the reasonableness of the firm's Financial Proposal, and, during negotiations, it expects to be able to review audited financial statements backing up the Consultant's remuneration rates, certified by an independent auditor. The Consultant shall be prepared to disclose such audited financial statements for the last three years, to substantiate its rates, and accept that its proposed rates and other financial matters are subject to scrutiny. Rate details are discussed below.

(i) Salary

This is the gross regular cash salary paid to the individual in the Consultant's home office. It shall not contain any premium for work away from headquarters or bonus (except where these are included by law or government regulations).

(ii) Bonus

Bonuses are normally paid out of profits. Because the Procuring Entity does not wish to make double payments for the same item, staff bonuses shall not normally be included in the rates. Where the Consultant's accounting system is such that the percentages of social costs and overheads are based on total revenue, including bonuses, those percentages shall be adjusted downward accordingly. Where national policy requires that thirteen (13) months' pay be given for twelve (12) months' work, the profit element need not be adjusted downward. Any discussions on bonuses shall be supported by audited documentation, which shall be treated as confidential.

(iii) Social Costs

Social costs are the costs to the Consultant of staff's non-monetary benefits. These items include, *inter alia*, pension, medical and life insurance costs, and the cost of a staff member being sick or on vacation. In this regard, the cost of leave for public holidays is not an acceptable social cost nor is the cost of leave taken during the Contract if no additional staff replacement has been provided. Additional leave taken at

the end of the Contract in accordance with the Consultant's leave policy is acceptable as a social cost.

(iv) Cost of Leave

The principles of calculating the cost of total days leave per annum as a percentage of basic salary shall normally be as follows:

$$\text{Leave cost as percentage of salary}^{20} = \frac{\text{total days leave} \times 100}{[365 - w - ph - v - s]}$$

It is important to note that leave can be considered a social cost only if the Procuring Entity is not charged for the leave taken.

(v) Overheads

Overhead expenses are the firm's business costs that are not directly related to the execution of the project and shall not be reimbursed as separate items under the Contract. Typical items are home office costs (partner's time, non-billable time, time of senior staff monitoring the project, rent, support staff, research, staff training, marketing, etc.), the cost of staff not currently employed on revenue-earning projects, and business promotion costs. During negotiations, audited financial statements, certified as correct by an independent auditor and supporting the last three years' overheads, shall be available for discussion, together with detailed lists of items making up the overheads and the percentage by which each relates to basic salary. The Procuring Entity does not accept an add-on margin for social charges, overhead expenses, etc., for staff who are not permanent employees of the firm. In such case, the firm shall be entitled only to administrative costs and fee on the monthly payments charged for subcontracted staff.

(vi) Fee or Profit

The fee or profit shall be based on the sum of the salary, social costs, and overhead. If any bonuses paid on a regular basis are listed, a corresponding reduction in the profit element shall be expected. Fee or profit shall not be allowed on travel or other reimbursable expenses, unless in the latter case an unusually large amount of procurement of equipment is required. The Consultant shall note that payments shall be made against an agreed estimated payment schedule as described in the draft form of the Contract.

(vii) Away from Headquarters Allowance or Premium

Some consultants pay allowances to staff working away from headquarters. Such allowances are calculated as a percentage of salary and shall not draw overheads or profit. Sometimes, by law, such allowances may draw social costs. In this case, the amount of this social cost shall still be shown under social costs, with the net allowance shown separately. For concerned staff, this allowance, where paid, shall cover home education, etc.; these and similar items shall not be considered as reimbursable costs.

(viii) Subsistence Allowances

²⁰ Where w = weekends, ph = public holidays, v = vacation, and s = sick leave.

Subsistence allowances are not included in the rates, but are paid separately and in local currency. No additional subsistence is payable for dependents — the subsistence rate shall be the same for married and single team members.

UNDP standard rates for the particular country may be used as reference to determine subsistence allowances.

2. Reimbursables

2.1 The financial negotiations shall further focus on such items as out-of-pocket expenses and other reimbursables. These costs may include, but are not restricted to, cost of surveys, equipment, office rent, supplies, international and local travel, computer rental, mobilization and demobilization, insurance, and printing. These costs may be either fixed or reimbursable in foreign or local currency.

3. Bank Guarantee

3.1 Payments to the Consultant, including payment of any advance based on cash flow projections covered by a bank guarantee, shall be made according to an agreed estimated schedule ensuring the firm regular payments in local and foreign currency, as long as the services proceed as planned.
