<i>Offered Loans</i>		
Sovereign Backed Loans		
The Bank will initially charge a fixed spread to LIBOR (Lending Spread).		
INTEREST RATE%	MATURITY PERIOD (Yrs.)	GRACE PERIOD (Yrs.)
The interest rate consists of a market-based variable reference rate and a spread. Interest is paid on the disbursed and outstanding Loan amount. The reference rate is LIBOR, and it resets semi-annually on each Interest Payment Date. The spread is fixed, and announced as the spread determined by the Bank and in effect one day prior to the date of signing of the Loan Agreement. It comprises the following elements: (A) The Bank's projected funding cost over the life of the Loan; (B) a contractual lending spread; (C) a market risk premium; and (D) depending on the Average Maturity of the Loan, a maturity premium. The spread is set for the life of the Loan. Interest during construction may be financed out of the Loan proceeds. A default interest rate is charged in lieu of the above interest rate if any payment of principal becomes overdue by thirty (30) days, until the overdue amount is fully paid. The Bank does not charge interest on overdue interest on Loans. Fixed Spread: base lending rate (LIBOR) plus additional 0.75% to 1.40% (USD), contingent on maturity.	The Bank determines a final maturity for the Loan that is appropriate and is consistent with the Loan's purpose, subject to an Average Maturity limit of up to twenty (20) years and a final maturity limit of up to thirty-five (35) years.	The grace period (other than for bullet payments) starts running from the date of signing of the Loan Agreement. The first Principle Payment Date is set to fall six (6) months after the date of expiration of the grace period. Interest Payment Dates fall on either the 1st of the 15th of the month (at the recipient's option) and semi-annually thereafter.
