Asian Development Bank - Loan														
1	Regional Development Project, Phase 1 – South Central Mindanao (formerly Mindanao Development Program)	Phase 1 of the project will reinforce recent ADB initiatives in the South-Central Mindanao Growth Corridor that support medium to long-term capacity development of the local government. It will advance identified priority infrastructure investments in South Central Mindanao and will establish a regional and inter-provincial planning and monitoring approach to integrated area development. The project supports the government's national spatial strategy, which recognizes the comparative advantages of cities and municipalities and seeks to address spatial and socioeconomic inequalities by linking lagging regions with economic growth centers. 2	Davao Public Transport Modernization Project	<p>The Project includes the development of improved public transport operations that will cover the full urban area and cater for the growth in travel demand at the cities expanding edges. The project will overhaul the outdated services that provide a poor level of service in terms of coverage area, hours of operation, and passenger comfort and facilities.</p> <p>The project will improve a city-wide bus-based public transport operating system, with improved and modern franchising mechanisms that ensure supply meets demand. This will be supported through traffic management improvements to prioritize bus services along a core network of around 110 kilometers (km).</p>	XI	DOTr	110.00	5,887.20					110.00	5,887.20	Exchange Rate: 1 USD = PhP 53.52 Source: BSP Rate as of June 29, 2018. 8	Inclusive Financial Sector Development Program (formerly Reducing Income Inequality through Financial Inclusion)	The proposed program will support the Government of the Philippines (government) efforts to bring more poor families into the financial system and the proposed program will be embedded in the government's new Financial Inclusion Strategy, which will be launched in 2015. It will support the implementation of new and innovative ways for the delivery and increase usage of non-credit financial products and services, access to housing finance, and financial literacy for the poor. The program will comprise of two subprograms being part of a medium to long term reform agenda (subprograms in 2018 and 2020). While the program will be targeted nationally at the bottom 60% of households in the income distribution, there will be a focus on regions such as in Visayas and Mindanao where financial inclusion rates are lower than the national average, and the incidence of poverty and income inequality are higher. International Fund for Agricultural Development - Loan														
1	Rural Agro-Enterprise Partnership for Inclusive Development and Growth Project (RAPID Growth) new title (formerly Rural Agro-Industrial Partnership for Inclusive Development and Growth (RAPID Growth))	To achieve the project objectives, the components are: a. <u>Component 1: Direct Assistance to Enterprises</u> . This will provide complementary activities necessary to boost investments along the four (4) commodity value chains. This includes the provision of conditional matching grants and partnership/coordination for the rehabilitation of farm-to-market roads (FMR) to improve connectivity of production areas to intended markets; b. <u>Component 2: Institutional Strengthening</u> . This will promote business partnerships between MSMEs and farmers in the four (4) commodity value chains. Interventions include: i) establishment of provincial networks of Negosyo Centers (NC), which will serve as one-stop shops for promoting entrepreneurship; ii) development of MEs and cooperatives as service hubs to provide basic services to farmers; iii) facilitation of inclusive and equitable partnerships between SMEs targeting profitable domestic and export markets; and iv) capacity building of local government units (LGU) on the supervision and monitoring of FMR rehabilitation works. c. <u>Component 3: Technical Assistance to FSPs</u> . Entails capacity building of financial service providers (FSP) for them to deliver accessible financial products and services; d. <u>Component 4: Innovation Fund</u> . Provides incentives to private equity and venture capital firms to co-finance SME capital requirements; and e. <u>Component 5: Project Management</u> . This will support the DTI and its implementing partners in undertaking the project's activities. World Bank, through its June 27, 2018 letter to DOF, responded on the request of the DOF to reprogram the IPAC loan to DAR's proposed "Support for Parcelization of Land for Individual Tiling" (SPLIT). The Bank requested for commitment from the proposed implementing agency and the oversight agencies to pursue preparation of SPLIT.
2	Metro Manila Bus Rapid Transit (BRT) Line 1 (formerly Manila-Quezon Avenue Bus Rapid Transit Project)	The project involves the provision of a mass transport system along the España-Quezon Avenue-Commonwealth Avenue corridor through high-capacity buses running on exclusive lanes. It seeks to provide preferential journey times for public transport, as well as improve the level of service to the passenger while in vehicle, waiting for the vehicle, and making their way to and from the vehicle. Through the conversion of largely sub-EURO vehicles to EuroIV, the project will also bring an un-quantified reduction in emissions along the corridor with resultant improvement in local air quality. Further, there will be a total greenhouse gas emission saving of 6.21 million tones over thirty (30) years, or an average of 207,000 tones per year. The World Bank in its letter to NEDA and DOF dated February 22, 2018, requested assistance in resolving issues delaying the implementation of the project. DOTr, through its May 28, 2018 letter to NEDA, reiterated its position that they are in favor of the proposed East West Rail Project over the MMBRT1 along the same corridor.
3	Philippines Renewable Energy Development Project (PHRED)	The project seeks, through a further guarantee cover for the ongoing Electric Cooperative Partial Credit Guarantee (ECPCG) Program, to increase renewable energy generation in all parts of the Philippines, including in off-grid areas, and to bolster private sector lending to electric cooperatives that are focused on operational and financial efficiency. It is expected that thereby ECs will be able to provide service to more customers and with better quality, while at the same time becoming more creditworthy and therefore better able to develop and/or purchase bulk renewable energy.
